Revision required:

The screenshot shows a Gmail interface with a search filter 'is:starred'. The email subject is '230520564 (International Journal Of Environmental Health Research) A revise decision has been made on your submission'. The sender is 'International Journal Of Environmental Health Research <onbehalf@manuscriptcentral.com>' dated Tue, Sep 12, 2:48 AM. The email body contains the following text:

Dear Dr. Febriyanto:

Your manuscript entitled "The Physical and Psychological Effects of Occupational Noise on Seafarers: A Systematic Review" which you submitted to International Journal Of Environmental Health Research, has been reviewed. The reviewer comments are included at the bottom of this letter.

You will see that although the referees find some merit in the paper it is required that substantial revisions be done before we can consider it further. Nevertheless, we do hope that you will be able to undertake the additional work on the paper and look forward to receiving a revised manuscript in due course.

When you revise your manuscript please highlight the changes you make in the manuscript by using the track changes mode in MS Word or by using bold or coloured text.

To submit a revision, go to <https://rp.tandfonline.com/submit/flow?submissionId=230520564&step=1>. If you decide to revise the work, please

The screenshot continues the email content with the following text:

When you revise your manuscript please highlight the changes you make in the manuscript by using the track changes mode in MS Word or by using bold or coloured text.

To submit a revision, go to <https://rp.tandfonline.com/submit/flow?submissionId=230520564&step=1>. If you decide to revise the work, please submit a list of changes or a rebuttal against each point which is being raised when you submit the revised manuscript.

If you have any questions or technical issues, please contact the journal's editorial office at SP-Ingast@journals.tandf.co.uk.

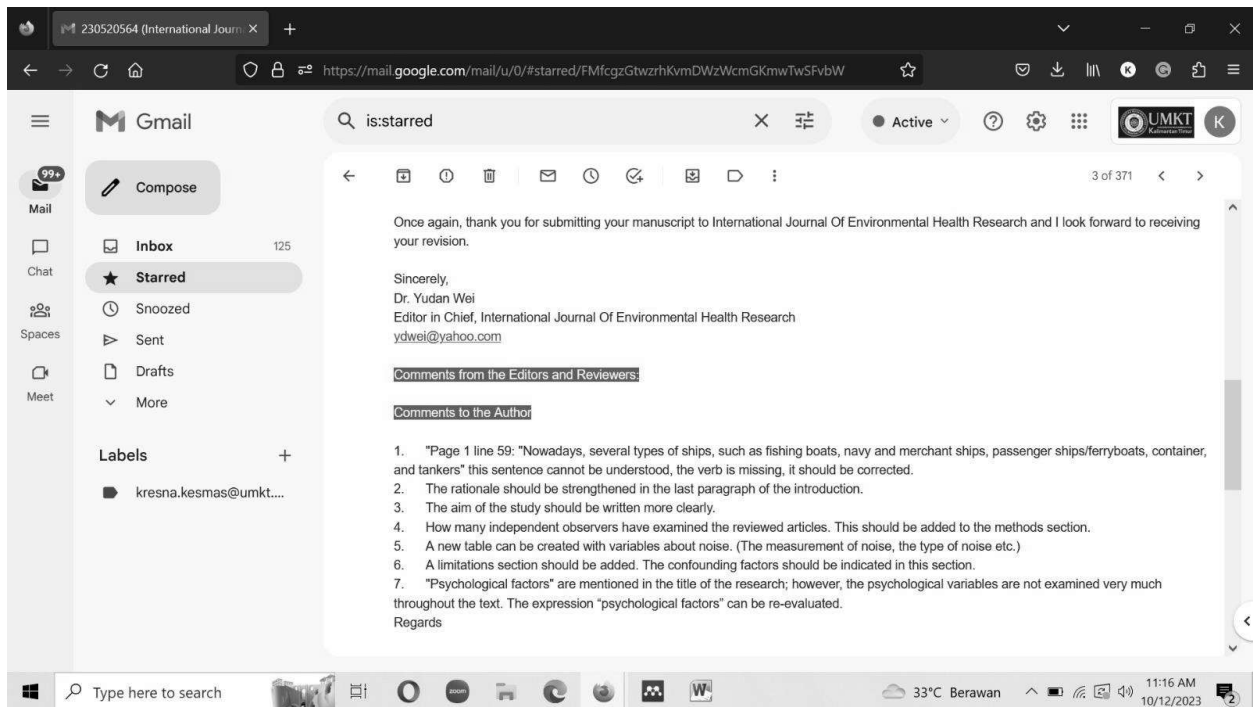

Because we are trying to facilitate timely publication of manuscripts submitted to International Journal Of Environmental Health Research, your revised manuscript should be uploaded as soon as possible. If it is not possible for you to submit your revision in a reasonable amount of time, we may have to consider your paper as a new submission.

Once again, thank you for submitting your manuscript to International Journal Of Environmental Health Research and I look forward to receiving your revision.

Sincerely,
Dr. Yudan Wei
Editor in Chief, International Journal Of Environmental Health Research

Comments to the Author

Responses to Reviewers' Comments:

In order to facilitate the identification of updates and improvements in our articles based on the reviewer's instructions, we employ line numbers in the two uploaded files, namely articles with author details and anonymous manuscripts.

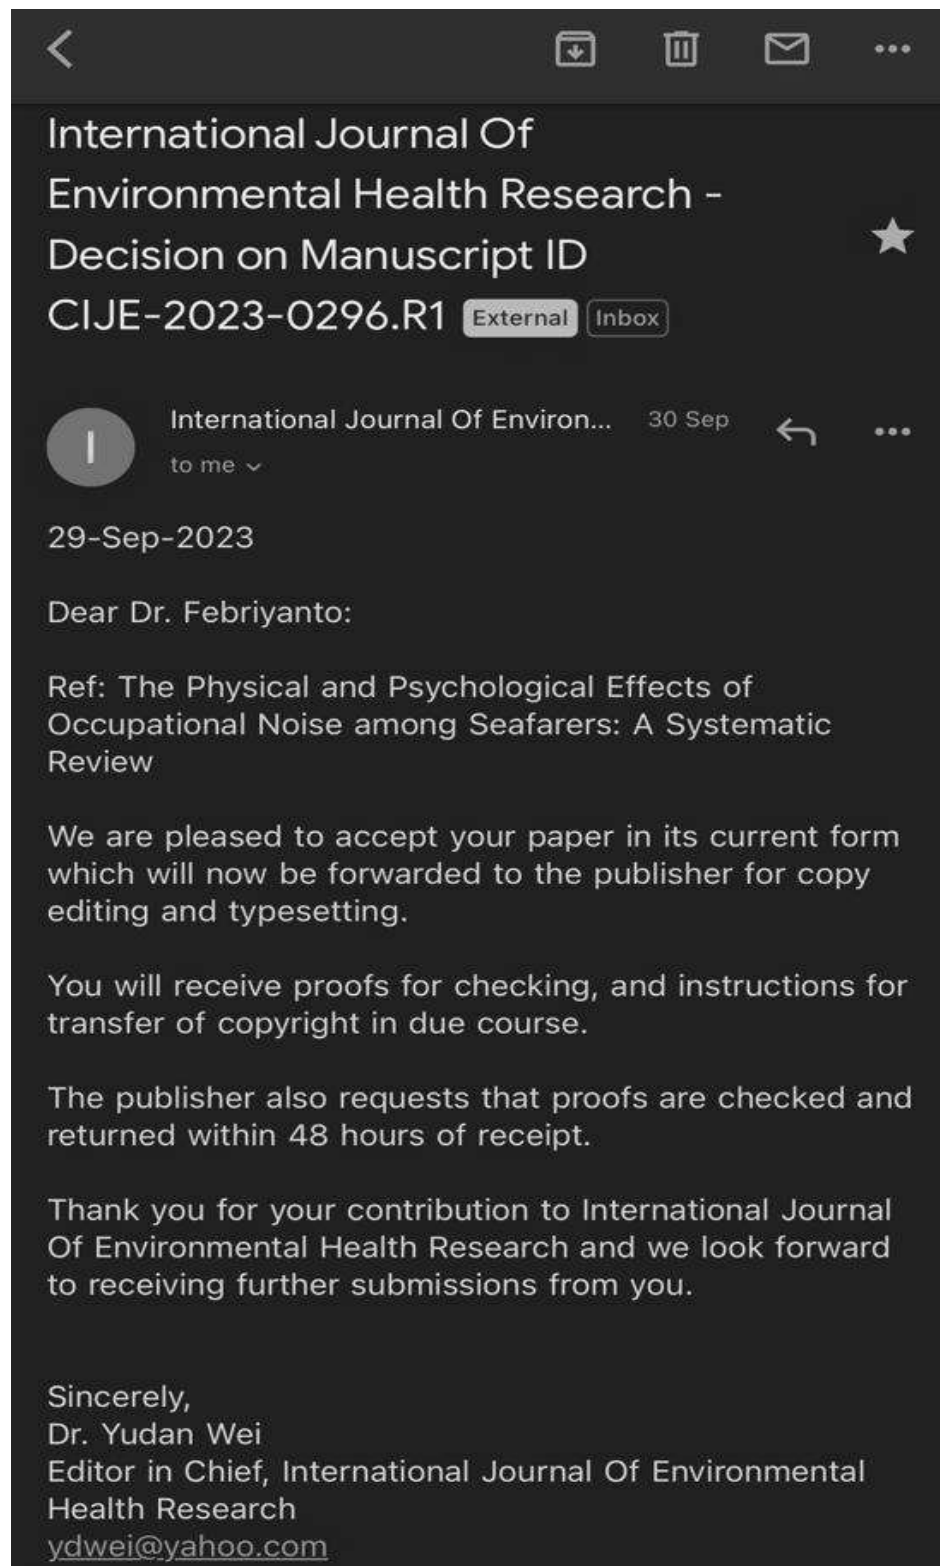

However, for the purpose of responding to the editors' suggestions for manuscript changes, the authors created a two-column grid to illustrate the revisions made to our article. This grid is presented in the subsequent table. **The changes that were made to the line numbers, as explained in the following table, is noticeable in the anonymous manuscript.**

Reviewer

	Comments and Questions	Response
1	"Page 1 line 59: "Nowadays, several types of ships, such as fishing boats, navy and merchant ships, passenger ships/ferryboats, container, and tankers" this sentence cannot be understood, the verb is missing, it	We updated the sentence to make it easier to read and understand, as stated on lines 29 from page one to 33 from page two.

	should be corrected.	
2	The rationale should be strengthened in the last paragraph of the introduction.	The rationale has been updated to further strengthen why this research needs to be carried out. Improvements can be seen on page three, line numbers 70–79.
3	The aim of the study should be written more clearly.	This point has been developed. Please refer to line number 80 to 82 on page four.
4	How many independent observers have examined the reviewed articles. This should be added to the methods section.	Additional sentences related to variables in this research are found in the inclusion criteria section of the methodology on lines 95 to 98, page four.
5	A new table can be created with variables about noise. (The measurement of noise, the type of noise etc.)	A new table has been added (Table 2), page eight lines 143.
6	A limitations section should be added. The confounding factors should be indicated in this section.	A separate section has been added. The points for Limitations can be found on page 13, lines number 247 to 260.
7	"Psychological factors" are mentioned in the title of the research; however, the psychological variables are not examined very much throughout the text. The expression "psychological factors" can be re-evaluated.	The inclusion of a discussion pertaining to both physical and psychological aspects has been added to the paper (refer to page 10, lines 155–166). This paragraph clarifies the physical consequences associated with noise, including auditory impairments such as hearing loss and tinnitus, sleep disturbances, and cardiovascular disorders. Concurrently, noise-induced psychological consequences involve anxiety, stress, and depression. These two classifications certainly belong to existing research papers. The reviewed articles in this study also discuss all of these implications. As a result, the present study's title classifies the physical and psychological consequences that happen as a result of noise.

Dear Joana Guedes,

Congratulations! We are pleased to share that your article "The Physical and Psychological Effects of Occupational Noise among Seafarers: A Systematic Review" has been accepted for publication in International Journal of Environmental Health Research.

To move forward with publication, we need you to review your Open Access options and accept the terms and conditions of an author publishing agreement.

We'll start with some questions that will inform the details we include in your agreement.

[START AGREEMENT PROCESS](#)

If you have questions about publishing your article, don't hesitate to contact us directly at CIJE-production@journals.tandf.co.uk

We look forward to seeing your article published, and we are pleased to have you in our authorship community.

Kind regards,

International Journal of Environmental Health Research Production Team
